Re: Off-Site Rule Acceptability Determination  
Riverview Land Preserve  
MID 980 608 657

Dear Mr. Menna:

This letter is in reply to your letter of February 13, 2008 letter to William Damico, of my staff, regarding the Riverview Land Preserve request for off-site rule acceptability.

Pursuant to 40 C.F.R. § 300.440 (b), my staff has determined that Riverview Land Preserve meets the acceptability criteria. Therefore, Riverview Land Preserve located at 20863 Grange Road, City of Riverview, Michigan is acceptable to receive waste from CERCLA sites.

This acceptability determination is based on the assumption that only wastes which comply with the permits issued to Riverview Land Preserve will be accepted. It is your responsibility to review any proposed waste streams for compliance with the permits for your facility.

Please note that this determination is based on the available information at the time of the review. Your status could be changed any time relevant information becomes available according to the procedures in 40 C.F.R. § 300.440 (d). Generators who need to use a currently acceptable facility should verify the current acceptability of any facilities they wish to use with the appropriate Regional Off-Site Rule Contact(s).

If you have questions, please contact Mr. Damico at (312) 353-8207, United States Environmental Protection Agency, Region 5 – LR-8J, 77 W. Jackson Boulevard, Chicago, Illinois 60604.

Sincerely,

A handwritten signature in cursive script, reading "Willie H. Harris".

Willie H. Harris, P.E.
